BULLETIN 2014-1

## SIMPLY THE BEST!

Simply the best is what customers have been telling us! Since PEAR Hose introduced the ContiTech Aviation Fueling Hose to the United States market, we have been hearing from so many customers that it is just the best hose they have used. PEAR Hose manufactures aviation hose assemblies in our Darby Montana facility to EI 1529 and MIL-DTL-6615F standards utilizing ContiTech AEROPAL® Aviation Hose. We carry sufficient stock from Grade 2, TYPE C (regular temp), CT (low temp) in sizes ¾" up 4". Also stocked is Type E JAC Riser hose from 1-1/2" to 4".

AEROPAL® brand aviation fuel hose meets all the leading industry and military standards. AEROPAL® hose is designed for long service life with an excellent outer cover offering good abrasion and environmental protection. The intermediate reinforcement layers offer good pressure and kink resistance and the smooth, non-porous inner liner is compatible with all known aviation fuel and gasoline grades (AEROPAL® LT for jet fuel only). AEROPAL® fueling and JAC-riser hoses are optimized for conditions with operating temperature range of -22°F to +158°F (-30°C to +70°C). AEROPAL® LT fueling and JACriser hoses are specially designed for ultra-low temperature applications. They offer unmatched low temperature flexibility and an operating temperature range of -67°F to +158°F (-55°C to +70°C).

PEAR Hose also has the best warranty in the business, 5 years for every hose we assemble coupled with the best service in the industry! PEAR Hose typically ships received orders within one to two days.

Contact us to experience simply the best into plane refuelling hose in the market today!

**We offer a 5 YEAR WARRANTY! Because we know *it's that good!***
